Professional Experience

2011 – Current **MoTown Group** **Indianapolis, IN**
Oracle Certified Partner that provides I.T. Consulting services specializing in PeopleSoft and Oracle Applications. Specializing in providing PeopleSoft As A Service (PaaS), and Production Support services across PeopleSoft and Oracle complimentary packages.

Managing Partner – Technical Delivery

- Serve as the primary technical lead and technical manager for several large PeopleSoft Enterprise environments which include: PeopleSoft Finance, PeopleSoft Portal, PeopleSoft HCM, and PeopleSoft CRM.
- Design and Implement PeopleSoft applications utilizing: Application Engine, Application Packages, PeopleCode, SQR, and COBOL.
- Develop and configure Integrations into and out of PeopleSoft using Integration Broker, 3rd party tools, EDI, and Flat File processing.
- Responsible for researching and applying Application patches/bundles and PeopleTools patches.

2009 - 2011 **Core BTG, LLC** **Indianapolis, IN**
Provides I.T. Consulting services specializing in: ERP Implementation, Application Development, Applications Management, Operations Support, and Strategic Business Initiatives.

Technical Lead - PeopleSoft Developer

- Coordinated and managed supply chain development projects between business process owners and ERP project team, responsible for fit gap analysis, and project workplans.
- Designed, developed, tested, and implemented software enhancements such as: SQR reports, Panel modifications, batch processes (Application Engine), EDI, and DCSI interfaces.
- Researched, evaluated, and applied PeopleSoft critical fixes, updates, and patches to the Inventory, Purchasing, and Manufacturing systems as required.
- Provided leadership and support to technical development teams in full-cycle implementations and upgrades of CRM, Supply Chain (SCM), Financials, and HR Applications.

2005 - 2009 **Rexnord Industries, Inc.** **Indianapolis, IN**
Leading Manufacturer and Distributor of power transmission & conveying components including flattop chains, modular belts, roller chains, and bearing products with annual sales of \$1 billion.

Technical Lead, Enterprise Applications

Reported to CIO with responsibility for implementing and supporting PeopleSoft CRM, Financials, and Supply Chain Management at 15 Manufacturing sites and 7 Warehouses.

- Designed, developed, implemented and supported a 20+module, fully integrated PeopleSoft Enterprise application suite, which was an Oracle strategic account and high-tech reference solution. Differentiated solution capabilities included a fully integrated Financials/Supply Chain solution, real-time worldwide view of inventory, daily planning, and business intelligence management dashboards.
- Designed and coded custom user friendly Purchasing Requisition page and modified batch Application Engine program(s) to process both Inventory and Purchasing requests and route the data accordingly.

Approval status, receipt status and all related information related to the request is displayed upon inquiry.

- Data conversion lead: Developed Application Engine to validate and load Item Master and initial Inventory balances, and Component Interfaces to load open Sales Orders,
- Designed and developed high-performing teams in the United States and India. Excellent understanding of resource planning and team dynamics with proven experience in successfully integrating all global components into a cohesive, high-performing unit.

2004 - 2005 **Core BTG, LLC** **Indianapolis, IN**
Provides I.T. Consulting services specializing in: ERP Implementation, Application Development, Applications Management, Operations Support, and Strategic Business Initiatives.
